Asset Management Program

An Overview of HaystackID's Enterprise Mananged Solutions nVentory Program

HAYSTACK™

nVentory® Asset Management Program

nVentory is an employer asset management program that helps companies proactively reduce the risk of computer-related theft, data destruction, or misuse of digital assets resulting from intentional or inadvertent activities associated with the voluntary or involuntary separation of employees and aids in the collection, control and management of terminated employee retention policies, and hardware recycling.

HaystackID's expert certified forensics examiners can help you proactively protect your organization against access, theft, and destruction of digital assets by departing employees.

Highlights of the program include:

- **Departing Employee Evaluation** – Six-point evaluation that provides context for the development of a custom protection pan for departing employees

- **Departing Employee Investigation** – Six-step comprehensive and customized investigation that includes forensic and collection services, inventory control and return or recycle
